

CLAIMS

The invention is hereby claimed as follows:

- 5 1. A gaming device comprising:
- Sub
A2
- a controller;
- a display device connected to said controller;
- at least one reel displayed by said display device;
- at least one symbol displayed on said reel;
- 10 means connected to the controller for selecting one of said symbols; and
- at least one payable display for said selected symbol stored in said controller;
- whereby selecting said symbol causes said controller to display a
- 15 payable display for said selected symbol.
2. The gaming device of Claim 1, which includes a plurality of reels connected to said controller and a plurality of symbols displayed on a plurality of reels.
- 20 3. The gaming device of Claim 1, wherein said symbol selection means includes a touch screen connected to said controller.

4. The gaming device of Claim 1, wherein said symbol selection means includes at least one digital input device.

5. The gaming device of Claim 2, wherein each of said plurality of symbols is associated with at least one payable display.

5 6. The gaming device of Claim 5, wherein each of a plurality of said displays contains different payable information from other of said displays.

7. The gaming device of Claim 6, which includes means for selecting one of said payable displays.

10 8. The gaming device of Claim 2, wherein at least one payable display includes payable information on a plurality of said symbols.

9. The gaming device of Claim 7, wherein each of a plurality of said displays contains different payable information from other of said displays.

15 10. The gaming device of Claim 9, which includes means for selecting one of a plurality of payable displays.

Sub
A3

11. A method of providing payable information for a gaming device comprising the steps of:

- (a) displaying at least one symbol on at least one reel connected to a controller of said gaming device;
- (b) enabling a player to select said symbol; and
- (c) displaying at least one payable associated with said symbol display.

12. The method of Claim 11, wherein displaying a payable display includes the step of scrolling through a display to an area displaying said selected symbol.

13. The method of Claim 11, wherein displaying a plurality of payable displays includes the step of sequencing said displays according to a sequence contained in said controller.

14. The method of Claim 11, wherein displaying a plurality of payable displays includes the step of enabling said player to select a means for sequentially toggling through said displays.

15. The method of Claim 11, wherein displaying a plurality of payable displays includes the step of enabling said player to select one of a plurality of means for selecting a single display.
